Propositions for students, teachers and pedagogues :

Inka Llacta offer the possibility for sutdents, pedagogues, teachers or passionates to do guided visits, with interactive games or Question/Answer games.

There is also a possibility to investigate at the Archeosite for hours, days, weeks and in sepcial cases months.

What is more interesting than defending theories, based on the work we have accomplished, or put in real situations.

The Inka Llacta archeosite is an opportunity to test theories directly on the site, what regards physics, geology, arts, architecture…
